Who We Are

A connected business platform serving evolving consumer and commercial markets.

Company Introduction

Unibrothers is a UK-based diversified international enterprise headquartered in London and engaged in manufacturing, trading, imports and exports. The company operates across multiple countries, connecting producers, suppliers, distributors, retailers and customers through an established commercial network. Its stated footprint extends across 145 countries and all seven continents, including relationships in the United Kingdom, United States, Canada, Germany, Turkey, South Korea, Japan and Pakistan.

The business model covers product ideation, OEM and ODM coordination, supplier selection, packaging direction, market positioning, distribution support and international trade facilitation across food, beverages, nutrition, personal care, hygiene, cosmetics, edible oils and household categories.

This company profile has been prepared specifically for Pakistan. It presents the capabilities, portfolio and partnership approach intended to support local market opportunities while drawing on Unibrothers' wider international experience, responsible sourcing and quality awareness.

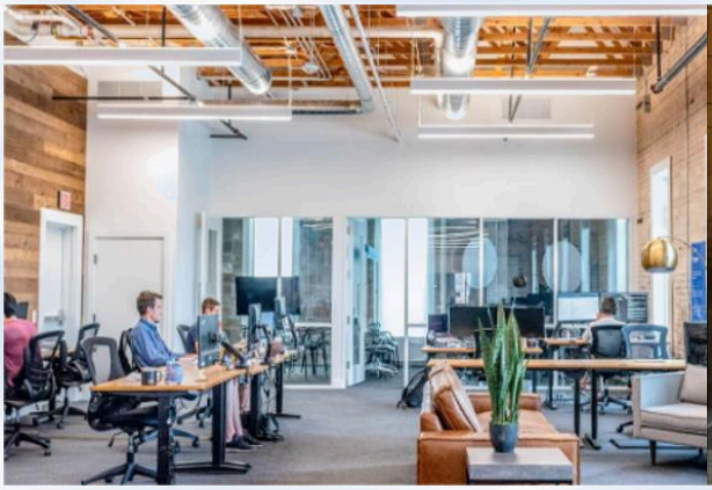
Core business services

Leadership & Direction

A clear commitment to sustainable growth, responsible conduct and lasting partnerships.



Founder’s Note

Our business is built around the full value chain - from farmers and manufacturers to suppliers, service providers and retailers. Whether a partner is beginning its growth journey or strengthening an established strategy, we bring commercial understanding, connections and practical support to help move forward with confidence.

CEO

Corporate Responsibility

We aim to conduct our operations with integrity, transparency and respect for customers, business partners, communities and the environment. Responsible sourcing, quality awareness and constructive stakeholder relationships are central to the way we work.

OUR VISION

To grow responsibly by expanding our positive economic and social contribution while continuously improving the environmental efficiency of our operations and supply networks.

What We Do

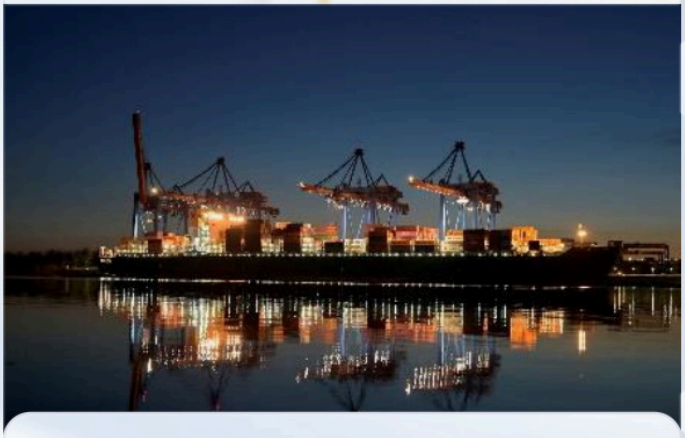
Integrated services designed to connect production capability with local and international demand.

Manufacturing

Transforming raw materials and product concepts into market-ready goods through coordinated production, quality controls and scalable processes.

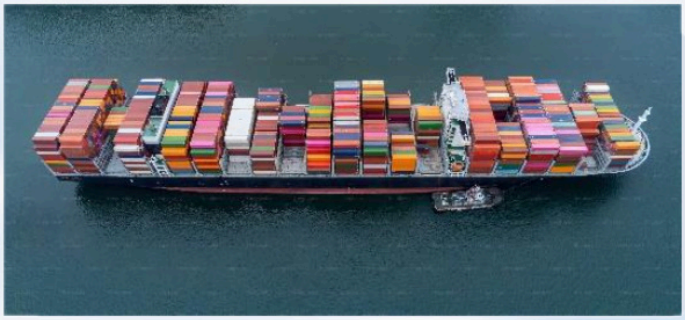
Trading

Connecting buyers and suppliers through market knowledge, commercial coordination and dependable product sourcing across diverse categories.



Imports

Helping customers access suitable products, materials and supply solutions from international markets with efficient coordination and documentation.



Exports

Connecting locally and regionally produced goods with overseas opportunities, supporting broader market access and sustainable commercial growth.

Our Capabilities

Commercial reach, category experience and a flexible partnership model.

We focus on understanding each partner’s requirements and shaping solutions around market realities. By combining commercial insight, supplier relationships and responsive execution, we help clients navigate product development, sourcing and route-to-market opportunities.

Global Market Connectivity

A broad network linking key international markets, suppliers and commercial partners.

FMCG Category Coverage

Experience across food, beverages, dairy, personal care, healthcare and household essentials.

OEM & ODM Solutions

Flexible sourcing and product-development support aligned with customer and market requirements.

Responsive Execution

Practical coordination focused on service quality, dependable communication and timely delivery.

Quality & Integrity

A responsible approach to partnerships, sourcing, documentation and long-term value creation.

Market-Led Innovation

Continuous attention to consumer trends, emerging opportunities and changing demand.

Our Products Have a Purpose

Products are organised under clear consumer-need categories, not separate brand families.

HC — Hair, Beauty & Personal Care

Hair care, grooming and personal-care products.

HH — Home, Laundry & Hygiene

Laundry, tissue and everyday hygiene products.

FN — Food & Natural Nutrition

Beverages, pantry foods and adult nutrition.

TN — Health & Nutrition for Toddlers

Infant and toddler nutrition stages in one category.

Hair & Personal Care

A focused care portfolio presented in consistent, premium product cards.

Swisse Men's Hair Growth

Men's shampoo format.

Hair Amla

Amla-based hair care.

Finnish Hair Butter Spa

Conditioning spa treatment.

Black & Brown Shampoo

Hair-dye shampoo range.

Hair-Care Range Architecture

A clear product hierarchy without repeating individual product packs.

Black & Brown Variant Family

A coordinated hair-dye shampoo range presented as one complete family image.

Variant Clarity

Each shade and pack should remain clearly differentiated.

Usage Guidance

Application, timing and safety guidance should remain visible.

Soft-Touch Development

Future extensions can follow the approved family architecture.

Consistent Identity

Logos, colour and typography should remain consistent.

Home & Laundry Care

Recognisable household brands presented without duplication.

Surf Active

Laundry-care concept.

Brite Washing Powder

Washing-powder concept.

Dairy Nutrition

The Daily Milk range is presented once, without repeating the same product.

Daily Milk Range

A coordinated dairy-nutrition concept with clear pack identity and family positioning.

Product Identity

Keep the range architecture clear and consistent.

Nutrition Information

All statements should match the approved label.

Pack Clarity

Formats and serving information should remain legible.

Quality Focus

Manufacturing and release checks support consumer confidence.

Tea & Natural Foods

Distinct pantry products with each image used once.

Blue Label Tea

Everyday tea concept.

Premium Tea

Premium tea concept.

Natural Honey

Natural-food concept.

Himalayan Pink Salt

Natural seasoning product.

Beverages, Confectionery & Adult Nutrition

Hydration, refreshment, confectionery and adult nutrition in one category.

Nova Drinking Water

Packaged drinking water.

YANG Fruit Drink

Fruit drink concept.

Dairy Queen Chocolate

Milk chocolate bar.

Mesure Adult Nutrition

Adult nutrition concept.

Personal Care & Beauty

Every available Finch product displayed once in a consistent card system.

Beauty Bar

Cleansing bar.

Hair Care

Hair-care lotion.

Body Cream

Intense-care cream.

Beauty Cream

Beauty cream.

Body Lotion

Moisturising lotion.

Green Beauty Bar

Cleansing bar variant.

Unique tissue formats shown once, with equal image sizes.

Family Tissue Range

Coordinated range.

Premium Box Tissues

Box tissue formats.

Facial Tissue Range

Facial tissue formats.

Maxi Roll Range

Household roll formats.

Infant and Toddler Nutrition

All four Infant-1 stages are consolidated under the toddler-nutrition category.

Infant Stage 1

Infant formula.

Infant Stage 2

Follow-on formula.

Infant Stage 3

Growing-up formula.

Infant Stage 4

Growing-up milk.

Cooking Oil, Ghee and Honey

Cooking oils, ghee and honey are grouped under food and natural nutrition.

Cooking Oil Family

Multiple oil formats.

Corn Oil

Family-size cooking oil.

Natural Honey

Laraib honey jar.

Home & Personal Hygiene

The complete available hygiene line presented in equal-size cards.

Original Antibacterial Soap

Original variant.

Cool Antibacterial Soap

Cool variant.

Fresh Antibacterial Soap

Fresh variant.

Antiseptic Liquid

Antiseptic liquid.

Hand Sanitizer Range

On-the-go protection.

Cleanser Gel

Cleansing gel.

Liquid Hand Wash

Everyday hand wash.

Surface Cleaner

Household cleaner.

Responsible Use & Product Stewardship

Clear principles support responsible communication and safe product use.

Responsible Product Communication

Every product family should present suitable usage, safety, quality and consumer guidance.

Usage Principles

Follow label directions and intended-use guidance.

Safety Principles

Warnings and precautions must be clear.

Claims Governance

Claims should match approved evidence.

Quality Focus

Specifications and release checks remain essential.

Health and Nutrition for Toddlers

All three Lactomax stages are consolidated with the Infant-1 stages in the same category.

Lactomax Stage 1

Stage-specific pack.

Lactomax Stage 2

Stage-specific pack.

Lactomax Stage 3

Stage-specific pack.

The Gut-Brain-Nutrition Connection

Preparation, nutrition and hygiene guidance for the consolidated toddler category.

Nutrition and Preparation Guidance

Stage selection and preparation should always follow the approved pack and qualified professional guidance.

Gut Microbiota

A varied diet supports normal digestive wellbeing.

Nutrient Absorption

Balanced nutrients perform different developmental roles.

Professional Guidance

Age-stage selection should follow qualified advice.

Preparation & Hygiene

Use safe water, clean utensils and correct ratios.

Personal Care for Women and Men

Every available hair-removal format displayed once.

Women Hair Removal

Cream formats.

Intimate Care

Intimate-care format.

Men Hair Removal

Men's cream range.

Hair Removal Spray

Spray foam format.

Unique sanitary and baby-care products shown in equal-size cards.

Ultra-Thin Pads

Ultra-thin format.

Long Pads

Long pad format.

Maxi Ultra

High-absorbency format.

Extra Comfort

Cottony wings format.

Baby Diapers

Disposable diaper.

Baby Pants

Pull-up pants.

A Purpose-Led Market Pathway

From consumer need to responsible launch.

CN

Consumer Need

Define the audience, use occasion and market opportunity.

PD

Product Development

Agree supplier, formulation and packaging specifications.

QC

Quality & Compliance

Complete safety, quality and label reviews.

LM

Launch & Monitoring

Coordinate distribution, feedback and improvement.

Connect with Unibrothers

We welcome conversations with customers, distributors, manufacturers, suppliers and strategic partners.
